

“Save it for someone who needs it worse than I do”

This is a phrase that we hear on a daily basis. Most folks from our area would rather go hungry than ask for charity. While we do have “no cost” and “low cost” programs available to those with little or no income, we also now have “shared cost” programs that depend on the middle income participant for their success. We are buying groceries by the tractor trailer load from a distribution center at the average cost of about \$10,000 per load. Our buying power depends on many people participating in order to continue to purchase the required amounts each month. Through at least one of our programs, our goal is that no one leaves empty handed.

MONTHLY INCOME OF LESS THAN \$1127 FOR THE 1ST PERSON IN THE HOUSEHOLD; PLUS \$390 FOR EACH PERSON THEREAFTER

Since 1985 ANCHOR has provided food to help those disabled or retired. After the loss of our manufacturing plants due to NAFTA, and now the loss of our service industry jobs due to the collapse of the building industry, we are expanding in hopes of providing something for everyone in the working class; including those whose hours have been cut or who have been laid off during these difficult financial times. Whether you qualify for a *no cost, low cost, or shared cost* program, visit our Distribution Center Monday through Friday from 1:30 pm until 5:30pm.

ABMI is a ministry and part of Anchor Baptist Church & Ministries, a non-profit religious corporation.

All handling fees suggested or required are just partial reimbursement for expenses already incurred to provide products offered.
